

Diploma Course

Beauty Therapy Level 2: BT102

This is a full time course and the training is intensive for those wishing to get a head start into beauty industry. The skills taught are highly commercial providing excellent opportunities for employment. This course covers the following:

Facial/Skin Care

This is a comprehensive study in skin care. Practical application includes: skin analysis, cleansing, balancing, toning, moisturising, steaming, extraction, a full facial massage routine, selecting, mixing and applying customised face masques. The theory involves the anatomy and physiology of the upper torso, including the muscles, bones, blood and nerve supply and an in depth study of the skin.

Waxing

Waxing is a very profitable treatment; students will learn practical and commercial skills for success in a business environment. Personal grooming is a massive growth industry and the demand for hair removal is huge, especially in the men's sector.

You will receive training in professional waxing skills. Students will practice on each other before performing this treatment in the school clinic for the clients. You will be building confidence and skills gradually and gain valuable experience in a 'real life' setting before you leave school and enter the industry.

You will learn to remove hair using different methods.

Manicure & Pedicure

You will receive training in professional manicure and pedicure skills. Prior knowledge is not required. This is an essential skill for anyone wishing to work in a salon or spa. Case studies on clients from the general public for presentation form part of this qualification.

Eyebrow and Eyelash Tinting

This section covers: how to assess the client's colour match and other important characteristics. Understand and explain mixing the tints and how to apply whilst protecting the surrounding skin. We will also teach effective tweezing and the hair removal to minimise client discomfort.
